## **HOW-TO:**

### HAPPY TREE

#### You will Need:

An empty flowerpot

Soil and Pebbles

Different coloured paper

A pair of scissors and a hole punch

Some string

A small tree branch with lots of little branches on it

Markers / pens

#### Instructions:

1. Take some soil and scoop it into your pot - fill it up almost to the top. Then take your branch and push it in as far as it will go, and surround the top with all your pebbles so it's steady!
2. Next, take all your colourful pieces of paper and draw some BIG leaf shapes. If you're allowed to use scissors, cut the leaves out, or ask a grown up to help.

3. In the top of each of the paper leaves, make a little hole with the hole-punch.
4. Then, think of ALL the things that make you super happy! Write each one on a leaf. If you want, you can ask a grown up to help you!
5. When you're finished, tie a bit of string through the leaf and hang them all over your tree! Best of all, you can add more happy words to the tree ANY TIME you want!!
