HOW-TO:

PETAL PORTRAITS

You will Need:

Flower petals and leaves

A piece of paper

Glue

Pencils and/or markers

Instructions:

1. First collect some flower petals or leaves - you can pick any colours you want. (Make sure they're safe to pick and are in your own garden - or you might even find them on the ground!)
2. You can make any kind of picture you like - you could make a person, or a fairy, or a bug. Anything at all!

3. Once you have your petals or leaves ready, you take a piece of paper and some glue and start to stick them down.
4. Once you have them all stuck down you can draw any bits left over with a pen or pencil!
