HOW-TO:

SALT PAINTING

You will Need:

Black cardboard
Thick glue stick
Small cup of white salt
Watercolour paint set
A paintbrush

Instructions:

1. Lay your black cardboard flat, then take your glue stick and draw a swirly pattern all over it.
2. Next get your cup of salt and sprinkle it all over the sticky glue trail. Pat the salt down with your hands to

make sure it sticks to the cardboard.

3. Pick up your picture and shake off all the loose salt! Now your painting only has salt where your glue stick went.

4. Get your paintbrush, dab it in the watercolour paints, then very gently drop little drops of coloured water onto the white salt trail, and watch as the colours run along the trail and turn it into a rainbow!
